

## Childless Men To Be Drafted Hershey Says

Washington, Feb. 5 (AP)—The House of Representatives today passed a bill which would draft men aged 18 to 35 who have no children.

The bill would make 18-year-olds subject to the draft. Some congressmen have been insisting that young married men ought to be exempted from the draft.

City Selling Ordinance Invalid

Little Rock, Feb. 5 (AP)—The Arkansas Supreme court ruled today that a city ordinance prohibiting door-to-door soliciting of orders for merchandise is invalid.

The supreme court decision, written by Associate Justice J. S. Holt, declared a Boone Circuit court order denying the city of Harrison and four employees of the Ohio-Mississippi photographic firm in Dallas, Tex.

The employees, Paul H. Wilkins, William H. Lynch, Jim Stratton and J. H. Ingram, were convicted of violating a city ordinance prohibiting door-to-door soliciting of orders for merchandise.

The supreme court said the ordinance violates the 14th amendment to the United States Constitution in that it abridges the rights of the men to engage in lawful occupation.

The photographs took orders for pictures and arranged for portraits at Philadelphia.

American, Mrs. Rosenberg said, are magnificent printers. When danger is clear and close at hand, we mobilize with incredible speed to beat back the threat.

The crisis that confronts us today is no hundred-yard dash. We can't sprint our way to victory. We must pace our whole preparedness effort in such a way that we will be strong whether the showdown comes next year or ten years from now.

## Russian War Weapons Not So Awesome

Washington, Feb. 5 (AP)—Are American military leaders taking a new look at Russia's war machine and finding it a little less awesome?

Or is it that high policy makers feel that, for reasons of both domestic and international psychology, the story of Red army might has been overplayed?

The answer may be some of each.

Gen. Dwight D. Eisenhower has epitomized some of the thinking that has been going on in the Pentagon lately.

In his Friday night radio address, he said "we should examine the current situation fearlessly, neither shooting our eyes to obvious dangers nor permitting fear to warp our judgment."

The record of the United States and its strength, he added, "should prevent hysterical apprehension of the future."

What is there in the current military situation of Russia which, if over-emphasized, could warp judgment?

In recent weeks, there has been disposition by military leaders to begin moving quietly toward offsetting some of the emphasis in the United States over the apparent numerical strength of the Soviet army. They feel that the "numbers" approach to estimating Red army strength is misleading.

In testimony to congressional committees and elsewhere, it is being pointed out that a Red army division, at full strength, is about half the size of an American, British or French division—9,000 compared with 18,000. Moreover, there is a belief that Red army division may be below authorized strength by 1,000 to 2,000 men.

In addition to points which military officials have stated publicly or privately, it may be assumed there are other segments of the Russian picture of interest to Pentagon analysts.

Estimates, probably based in part on reasonably good military intelligence, credit Russia with a huge stockpile of tanks and artillery.

But, by American standards, those need not all be big assets. The 40,000 or 50,000 tanks which some estimate the Soviets possess very probably include a large, even major percentage of World War II types. Anti-tank weapon development has progressed since the end of World War II.

## McMath Seeking Co-operation of Public

Little Rock, Feb. 5 (AP)—Governor McMath wants Arkansans to let him and the legislature know their views on the state's "basic problems."

In a radio address Saturday he included as "basic problems" schools, the welfare department, a modernized state hospital and construction of the long-proposed state medical center.

The vast majority of the members of the legislature are striving for a fair and effective solution to these problems," he said.

"I am confident that they would be glad to hear from you as to what you think should be done, personally, would be most grateful if you would give me the benefit of your advice and counsel."

## New Cold Wave Due Over the U. S.

By United Press

A new cold snap hit the United States today, only a few days after the nation had recovered from one of its worst cold waves in years.

Temperatures were not expected to go as high as low as they did during the cold wave which ended Saturday, however.

The new mass of frigid air bore down on the north central states from across the Atlantic, forcing the mercury down to 11 below zero at International Falls, Minn.

Southern New England was blanketed by a snowstorm. Three teenagers and a 28-year-old man drowned when they fell through thin ice over a water-filled gravel pit at Penna Grove, N. J. Two other boys drowned in a similar accident at Reading, Pa., as they tried to recover coins thrown into the ice by older boys.

Temperatures were still below normal in the south, where the cold wave has cost millions of dollars in damages. Freezing temperatures stretched as far south as northern Florida and southern Alabama.

Florida warmed up today after a weekend of freezing weather that caused some damage to fruit and vegetable crops and left thousands of cattle dead on open ranges.

The forecast was for a partly cloudy week with slowly rising temperatures in the wake of some of the coldest weather the state had seen in 50 years.

Citrus in the major producing areas came through and most of the vegetable crops appeared to have escaped serious loss.

A driving, ice-freezing rain that lashed the state's cattle ranges for 18 hours left an estimated 3,000 to 5,000 cattle dead in nine counties.

The forecast was for a partly cloudy week with slowly rising temperatures in the wake of some of the coldest weather the state had seen in 50 years.

Girl Scout chief—The new national executive director of the Girl Scouts of the U. S. A. is Dorothy C. Stratton, above, of Washington, D. C. Miss Stratton, wartime director of the SPARS, women's Coast Guard organization, is a native of Brookfield, Mo. She succeeds Mrs. Paul Rittenhouse, who retired after 15 years as Girl Scout head.

Humans

Continued on Page Two

Gopher, he was enjoying 56 degrees and during this period it dropped only 9 degrees. Again, January 8th, the air temperature dropped 21 degrees while the soil dropped only 3 degrees.

If you would like to live where the temperature remains rather constant and the wind doesn't go through your pants, you should consult Mr. Bull Weevil; he knows the ropes. Where he lives the soil temperature doesn't change so rapidly and is always lagging behind the air temperature in making its changes. That is to say, when the air temperature starts down, Mr. Bull Weevil just sticks out his proboscis and says, "Boy, it's getting cold out there so I had better pull up a little more covers (by crawling a little further back under the bushes and weeds) for about morning it will be colder down here."

He didn't read the thermometer at the Experiment Station but he knew that the soil temperature would start changing about 24 hours behind the air temperature and that it would not change as rapidly either up or down, or go as far in either extreme. That is to say, when the air temperature is high at his house will be cooler and when our temperature is low his will be warmer than ours. During Jan., our temperature ranged from a maximum of 70 degrees on Jan. 20th to a low of 15 degrees on January 20th to the lowest of 39 degrees on January 31st, giving a maximum for the month of an air temperature variation of 31 degrees and of the soil only 7 degrees.

On January 20th the 4 p.m. air temperature reading was 78 degrees and 24 hours later it was 38 degrees, while the soil varied from 44 degrees to 43 degrees during this time. Actually the soil temperature kept rising until 12 noon the following day, January 21st, indicating a lag of about 20 hours behind the air temperature.

Mr. Bull Weevil is smart he didn't have to be told to go to the bushes to pass the winter and the Experiment Station didn't tell him either. The Experiment Station in trying to find out why he went to the woods and fence rows for the winter took temperature readings at ground level at the following locations with 3 inches of snow on the ground.

Location

Cotton patch on ridge 31°

Woodlots — woods 33°

Outfield — top of a hill 32°

Bushes & straw (shaded) 34°

Lawn 32°

Weather — yard (surface) 32°

Weather — yard (6 inches down) 33°

Looking at the temperatures in the woods and around the bushes and straw, it can be seen why Mr. Weevil took to the woods.

Here is hoping Mr. Weevil and all of his family will pass away this winter, however, he seems to be pretty well protected and knows how to care for his brood. So, I am sure we will be seeing something of him next year, so don't let him steal your overalls.

\*Data secured by V. C. Thompson research asst. of the Station.

Crack

Continued from Page One

walkout which began six days ago came yesterday in the strategic rail center of Atlanta. The return to work there of about 1,500 switchmen was sufficient to restore normal operations in three railroad yards and to lift embargoes by all but one line.

But while the resumption of work in Atlanta and several other points was watched for signs of a possible end of the strike, it broke out in some new spots. The New York, New Haven and Hartford, a vital link between New York and New England was forced to cancel all its service. With all rail operation serving New York virtually paralyzed, the city faced a possible shortage of fuel and such foods as fresh fruits and vegetables.

At Minneapolis and St. Paul, Minn., where some switchmen went back to their jobs Saturday, the Northern Pacific and the Chicago and Northwestern reported

them on the "sick" list again yesterday.

Other cities reporting some or most of the men back at work included Kansas City, Chattanooga, Tenn., Norfolk, Va., Philadelphia and Ludington, Mich.

In Atlanta, a union official said the men who returned to their jobs there were encouraged by the resumption in Washington of union-management negotiations on their wage dispute. The union, the Brotherhood of Railroad Trainmen, and the other big four brotherhoods have asked a 40-hour work week at their present pay for 48 hours, plus some operating rules changes.

The national mediation board, which is conducting the negotiations, announced last night it had asked all four unions to restate today in writing the settlement for-

mula which their members will accept.

The board had been in session until late Sunday night with representatives of the railroads, conductors, firemen and trainmen.

Board Chairman John Thad Scott told newsmen "we feel some progress is being made on important issues," but he declined to discuss details. The talks were to be resumed today.

## Crimson Holiday

By Jane Hekinger

COPYRIGHT 1951 BY NEA SERVICE, INC.

THIS STORY: Lavinia Grenable, uncompromising and hateful old barrister, has hidden in her death in a wheel chair, which rolled on a terrace that Lavinia Grenable had built for her, like little black clouds filling up on a spring day.

Most clearly and frighteningly she was now remembering the figure of her father on the ridge and the echo of Lavinia Grenable's scream ringing in her ears and a furtive movement in the shrubbery as she had gone up the back steps into the Grenable house to telephone.

What was there between Elizabeth Stratton, Lavinia Grenable's sister, and her father that they felt compelled to hide? And along with the rush of memories came another and more terrible one, her father's words at the breakfast table yesterday morning when she had told him about Court. "I'd give my life to keep you away from her," he had said.

Angus rubbed his chin, smooth-shaven above his gray beard and sport shirt. Lisa noticed. He's about 27, she decided. He looks as wonderful to me this morning as he did last night. But of course she had known it would be that way. And then his peculiar embarrassment and the apprehensive undertone of gravity in his voice joined her.

"It's only routine," Angus was saying to her father, "naturally the authorities would want to talk to all the neighbors."

"Who?" she said.

"Sheriff Lane . . . the police," he repeated gently. "I was telling Mr. Farwell the police questioned Tim and me last night. I think they even suspected me," he said grimly. "You see," and he added the last very casually, without meeting her eyes, "some of the Grenables saw a man leaving the grounds by way of the ridge about the same time Mrs. Grenable was killed."

LISA felt her cheeks burning and her hands grew icy and she just stood there staring at Angus, remembering that she had seen the figure on the ridge, too. But it was Henry Farwell who spoke to her stiffly.

"You see, my dear, Angus is here to warn us that the police think Lavinia's death was not entirely accidental and they plan to question everyone, including me."

"But were you on the . . ." Lisa stopped, unable to finish the word "ridge" and Angus filled in hurriedly.

"The police know it wasn't an accident, Lisa. It's a plain and simple case of murder. The emergency brake on the wheel chair was sawed in two."

Her father's voice was calm again. "Does Sheriff Lane have any ideas?"

"I couldn't say, but the Grenables are doing their best to give him some," Angus Kent observed wryly.

Lisa had the sensation that he was watching her, trying to learn something from her, and she felt an odd helplessness for the first time in her presence.

## Remaining 3 Electrocuted in Virginia

Richmond, Va., Feb. 5 — (AP) — The state of Virginia closed the book on the "Martinsville seven" today with the electrocution of the final three in the state penitentiary here.

A last minute plea to a U. S. Supreme court justice was futile and the three men walked to their deaths in the basement execution chamber in the space of 45 minutes.

Their four companions in the mass rape of a Martinsville white woman were executed Friday morning. There, too, attorneys had made an 11th hour plea to save the Negroes from the electric chair.

Just as Friday's executions were carried out, the three today were in an atmosphere of dispassionate calm. None of the demonstrations that marked clemency efforts for the seven here, throughout this country and abroad, was in evidence.

In the past twenty months interim five reprieves were granted while the case was carried through the state and federal courts—four times to the U. S. Supreme court for one of its justices.

The men were executed in this order today: John Clabon Taylor, 24, James Luther Hairston, 23, and Francis Desales Gryson, 40.

A last-minute appeal in behalf of the trip was turned down in Washington last night when Supreme Court Justice Harold H. Burton declined to issue a stay of execution.

Just six hours before the first four men — Joe Henry Hampton, 22; Frank L. Hairston, 21; Booker T. Miller, 22; and Howard Hairston, 21 — went to their deaths on Friday, Chief Justice Fred M. Vinson had denied them an execution stay.

The appeal to Justice Burton by Aubrey Grossman, organizational secretary for the Civil Rights Congress in New York, and Washington Attorneys Joseph Forer and Bedford Lawson climaxed a day of activity.

## Prosecution Rests in Perjury Trial

New York, Feb. 2 (AP) — The prosecution rested today in the William W. Remington perjury trial, after a final government witness linked Remington's wartime work with aircraft production figures.

The case is expected to go to the jury in the next day or two after the defense presents final rebuttal testimony.

Last witness to appear for the government was a former war production board employee, William C. Mermoth, who produced reworked aircraft statistics, orders indicating Remington once worked on aircraft statistics.

Remington, 33-year-old former commerce department economist, is charged with falsely swearing he never was a Communist.

Former Communist spy courier Elizabeth Bentley, a major prosecution witness, has testified Remington supplied her with data for the Russians, including plane production figures.

Remington has told the federal jury he never handled such figures.

San Marino is the oldest and smallest republic in the world.

feverfew in a silver bowl, flanked by tall pink tapers.

Mrs. H. J. F. Garrett, Mrs. Ralph Routon, and Mrs. C. D. Lester alternated at the silver service. Mrs. Rufus Herndon, Mrs. T. S. McDavitt, and Mrs. Gus Haynes alternated in serving the individual white cakes.

Mrs. Dolphus Whitten was in charge of the guest book. Others in the house party were Mrs. R. E. Jackson, Mrs. R. L. Broach, Mrs. J. W. Franks, Mrs. J. M. Duffie, Mrs. Martin Pool, and Mrs. Lawrence Martin.

Among the out of town guests were Mr. and Mrs. Tom Clark, Mr. and Mrs. Hugh Ross, and Mr. and Mrs. Jack Bell, all of Arkadelphia, and Jack Gray of Texarkana.

## Coming and Going

Mr. and Mrs. J. J. Shewitt and daughter, Patricia of Arkadelphia spent the week-end with their daughter and sister, Mrs. Horace Hubbard and visited with Mr. Hubbard in Josephine Hospital, where he underwent an appendectomy Friday morning.

Miss Mildred Wingfield of Alexandria, Virginia was the week-end guest of Mrs. D. H. Carnahan. Mr. and Mrs. Chet Bailey of Nankota, Minnesota are also guests in the Carnahan home.

Miss Peggy Pentecost and Buddy Sutton, students at the University of Arkansas, Fayetteville, were week-end guests of their parents, Mr. and Mrs. Newt Pentecost and Mr. and Mrs. Claud Sutton.

Miss Nancy Camp of the University of Arkansas, Fayetteville, was the week-end guest of her parents, Mr. and Mrs. Dewey Camp.

## Personal Mention

Seaman recruit W. H. Gunter, Jr., son of Mr. and Mrs. W. H. Gunter, 709 East Division Street, is undergoing recruit training at the Great Lakes training center, San

**THAT'S IT, LADY**—London butcher A. R. Woodgate shows a housewife what her meat ration will look like now that the government has trimmed it another 20 per cent. Under the new ration, a person is allowed only four ounces of rump steak a week.

**THE KING'S A MARINE** — "Kinging it" before a mirror, in preparation for his reign as King Patra I on Mardi Gras Day in New Orleans, is Hospitalman First Class Lindsay A. Larson, Jr., 26-year-old Marine Corps Korea vet, now recovering from frozen feet. King Larson will be the first serviceman ever to serve as the Mardi Gras "Lord of Misrule," a job that usually goes to a society leader. High society abandoned the Mardi Gras this year because of the Korean war.

## DOROTHY DIX

### How to Be Popular

Dear Dorothy Dix: I have finally come to the conclusion that in order to be popular one needs to be beautiful, witty and vivacious. It is not necessary to be sweet, considerate of others, and so on, as you have said. I have found that people who are the least considerate of others, who are selfish, who never regard any one's pleasure but their own, who say nasty things and who never entertain others are the most popular and have the most invitations to other people's parties.

**ONE WHO HAS THOUGHT**  
Answer: Well, my dear, if this is the result of your thinking, I don't think you have reached the right conclusion. At any rate, not the great majority of women, nor for the long pull.

You are quite right in thinking that if you are extremely attractive you will be sought after. You will be invited about, no matter how selfish and inconsiderate of others you may be. At least, you will for a time and while your attractiveness lasts, but if you will observe you will see that the glamour soon passes and that the popularity which is built upon just a surface never lasts long.

**Beauty's Not Everything**  
We all admire beauty, for instance. We are all attracted to a girl who is a feast to our eyes. We like to have her around just to look at. But if we find that she is dull and stupid to talk to, or that she is obsessed with vanity; if she monopolizes all the men; if she is never willing to do what other people want to do, how quickly her attractiveness vanishes!

Likewise, we all admire a vivacious and witty girl. We laugh at her sallies and we like to be in her company. But only so long as she is good-natured and considerate of others. The minute her wisecracks have malice in them, the minute she begins holding up people to ridicule, the minute she begins clapping other girls, we become afraid of her. Many and many a girl cuts her throat with her own sharp tongue.

So it all comes back to the homely virtues that you despise. If Nature turned you out a headliner you may have a brief popularity because it ruthlessly sacrificed its line, even if you are mean and selfish and little-considerate. But in the end the things people are going to like you for, the qualities that are going to bring you a true and lasting popularity, are the things that you are not thinking of.

Dear Miss Dix: About six years ago I was in love with a girl who turned me down when I asked her to marry me. I persisted until I got discouraged and married another girl and now have a young son. The girl married another man and also has a child. But the trouble is that we are madly in love with each other in spite of our being married to others, and we don't know what to do. Shall we go to her husband and my wife and tell them the truth?

**J. D.**  
Answer: Why lovers' tiffs so often result in their marrying strangers, nobody knows. Whether they think they spite each other by trying themselves up for life with someone they don't care for, or whether they think that marriage is a sort of pulchre that will take the sting out of their wounded affections, is a mystery, but it is a fact that anybody can catch a heart on the rebound.

Certainly it is a foolish and vain thing for a man who is in love with one woman to marry another in the belief that it will solace him. And it is a cruel thing to do because it ruthlessly sacrifices the woman who has a right to expect from her husband the affection that he has given to another.

However, your mistake has been made and it seems to me that the fairest thing would be for you and your former sweetheart to make a clean breast if it to your mates. Perhaps they would not be as unwilling to give you up as you anticipate, because living with a husband or wife who is in love with someone else and feeling marriage a prison cannot make for a very satisfactory union.

**Dear Dorothy Dix:** Although my wife and I are both working, our income is just enough to live on with a little left over to save for a future day, but from the beginning of our marriage my wife has been giving a great deal of her money to her mother. So much, in fact that we are now in debt, even though we have cut out all amusements and are economizing on our food. If her mother needed the money, I should not complain, but she has an income twice as large as ours. How can she be so stingy?

**Answer:** This is no place for fact. It is no place for forthright speaking and reading the lines set in both women. Make the mother see how unfair she is in taking her daughter's hard-earned money when she does not need it, and make your mother-in-law understand that you are not a charity case.

**Dear Dorothy Dix:** I have finally come to the conclusion that in order to be popular one needs to be beautiful, witty and vivacious. It is not necessary to be sweet, considerate of others, and so on, as you have said. I have found that people who are the least considerate of others, who are selfish, who never regard any one's pleasure but their own, who say nasty things and who never entertain others are the most popular and have the most invitations to other people's parties.

**ONE WHO HAS THOUGHT**  
Answer: Well, my dear, if this is the result of your thinking, I don't think you have reached the right conclusion. At any rate, not the great majority of women, nor for the long pull.

## Court Docket

**City**  
James Hembree, Disturbing peace, forfeited \$10 cash bond.  
Walter Hall, Disturbing peace, forfeited \$10 cash bond.  
Mrs. J. A. McPherson, incorrect parking, forfeited \$1 cash bond.  
Rex Jones, Drunkenness, plea guilty — fined \$10.  
Harry Keith, John D. Riley, Ashby Williams, T. C. Brantley, drunkenness, forfeited \$10 cash bond.  
Governor Poindexter, aggravated assault, plea guilty, fined \$50.  
Tom Ellis, driving car while under the influence of intoxicating liquor, forfeited \$25 cash bond, right to drive revoked for 30 days.  
George Mahaseo, assault and battery, forfeited \$10 cash bond.  
Claude C. Walker, assault and battery, plea guilty, fined \$10.

**State**  
Linus Berard, robbery, plea guilty held to Grand Jury bond fixed at \$500.  
LeRoy William, Jr., Transporting more than 1-gallon of intoxicating liquor, forfeited \$50 cash bond.  
R. O. Robins, possessing more than 1-gallon of intoxicating liquor, forfeited \$50 cash bond.  
Gilbert N. McAdams, willfully violating the provisions of unemployment, dismissed on payment cost.  
LeRoy Gigsby, driving truck without owner's consent, dismissed.

**Civil**  
Jack McClendon vs Tom Duckett, action on account for \$95.74, judgment for plaintiff by default for \$95.74 with interest.

## 16 Persons Die Violently in Arkansas

By The Associated Press

At least 16 persons died violently in Arkansas during the week ended Sunday, and 11 of the fatalities were attributed directly or indirectly to the frigid weather.

Three died outright of exposure. One drowned after falling through ice. Two were asphyxiated while trying to keep warm in a tightly closed truck cab. Two apparently froze to death after suffering heart attacks. Two fire deaths and one traffic fatality were blamed partly on the cold and ice.

There were four weekend fatalities. Odell McCollum, 28, of Mulberry, Ark., died Sunday in a Fort Smith hospital of injuries suffered when his car overturned Saturday night.

In Pine Bluff, Edwin Pierce, 60, was killed when he was struck by a truck in the back yard of his daughter's home Saturday. The driver, Bob Thomas of Rison, was backing the truck out of the yard after delivering a quantity of liquefied gas.

The frozen body of J. Q. Crawford, 68-year-old farmer, was found in a field near Helena. Corner J. W. Nichols said Crawford suffered a heart attack or froze to death.

A 48-year-old farm wife, Mrs. Steve Carlington, died Saturday in a Warren hospital of burns suffered at her home near Fordyce Thursday. She was warming herself in front of an open blaze when her clothing caught fire.

**England Faces Showdown on Communists**  
London, Feb. 5 — (AP) — A creeping dock strike, denounced by union chiefs as Communist-inspired, crippled the ports of Liverpool and Manchester today.

The national dock labor board said 9,807 men were idle out of the nation's total stevedoring force of some 90,000.

At Liverpool 58 ships stood idle at their moorings and the handling of cargo on another 28 was slowed to a walk. At Manchester 15 ships were abandoned by strikers and work continued on only five.

Union leaders, exhorting the country's 90,000 dock workers to ignore the strike calls, charged the Reds were behind the walkout.

The Communist Daily Worker retorted that not a single Communist sits on the Merseyside port workers committee, which called the strike.

The main strike effort was directed at the two big port cities of London and Manchester, home of more than one-third of the nation's dock manpower.

Workers in London's east end, carrying dinner pails and dressed in work clothes, struggled to an early morning meeting to hear Liverpool Strike Leader Joe Harrison. He was not expected to receive much support.

Even in Liverpool more than 12,000 dockers already had ignored the strike appeal and turned up for work Saturday. But those who stayed away held up the unloading of 63 of the 250 ships in port.

At nearby Ellesmere port dockers refused to join the strike. It began Friday in protest over the union's acceptance of a 11-shilling-a-week (\$1.54) wage increase awarded by an arbitration board.

**Answer:** This is no place for fact. It is no place for forthright speaking and reading the lines set in both women. Make the mother see how unfair she is in taking her daughter's hard-earned money when she does not need it, and make your mother-in-law understand that you are not a charity case.

## 25 Years Ago Today

From Files of Star of Hope

February 5, 1926

E. P. Stewart will leave Sunday for Peoria, Illinois, where Edwin will enter the Bradley Polytechnic school to study watchmaking and kindred subjects.

Nick Jewell was in charge of the Hope Rotary Club weekly meeting and luncheon held at noon today. Interesting talks were given by Bennett Freeman, Dudley Burford and Carter Johnson.

The Galloway club of Hope will present "The Flapper Grandma" at the new Grand Theatre on Tuesday, February 23, under the direction of the Sewell Company.

Mrs. Dick Barlow is moving her new home in Shreveport, Louisiana and will be accompanied by her sister, Miss Annie Mae Graves who will be her guest.

Washington, Feb. 5 (AP) — The senate small business committee sharply rapped the national production authority (NPA) today for a "lack of both energy and imagination" in its defense mobilization dealings with little firms.

## Little Business Really Hurt, NPA Slammed

The committee, headed by Senator Sparkman (D-Ala.), said it was "a large segment of the American small business" which the NPA's "insensitiveness" to the problems of little companies has hurt.

In a knuckle-cracking report, the committee accused the NPA of "insensitiveness" to the problems of little companies, a time when "a large segment of the American small business" is in imminent "danger" of bankruptcy through the shortage of basic materials.

The committee, headed by Senator Sparkman (D-Ala.), said it was "a large segment of the

**Public Asked**

**to Aid Price**

**Control**

Washington, Feb. 5 —(AP)— The

government is enlisting public

support on the problem of enforcing

price controls — a problem on

which it finds itself divided.

Price Director Michael V. Di-

Salle yesterday asked the mayors

of all cities with more than

10,000 population to set up volun-

tary committees to encourage a

“general public knowledge and ob-

servance of regulations adopted in

the interest of a sound national

economy.”

This move, of course, was not

designed to take the place of pro-

tection of price regulation viola-

tions. It was on that phase that

the split developed between Di-

Salle's office of price stabilization

(OPB) and the justice department.

The question was one of jurisdic-

tion between the two agencies,

and some officials speculated that

President Truman himself may

have to resolve it.

Attorney General McGrath an-

nounced last week that he was

setting up a special unit to handle

litigation growing out of price

and wage controls. DiSalle, due

to make his first public progress

report in a speech at Toledo tonight,

was reported to be resisting.

He was said to feel that he can-

not carry out a price control pro-

gram effectively unless the en-

forcement officials are in his own

agency working closely with those

who administer the law and regu-

lations.

Questioned on this point in To-

ledo, DiSalle said the disagreement

“is a matter of clarification rather

than a dispute.” He added: “It is

a question of where we leave off

and where they take over.”

Assistant Attorney General Pay-

ton Ford, under whose direction

the new price-wage unit will op-

erate, said he knew of no disagree-

ment. “I have had no dispute

with anybody about this,” he told

a reporter.

But ideas of Eric Johnston, the

director of economic stabilization

and DiSalle's immediate superior,

said that the law is vague about

where it would have enforcement

powers.

These officials who asked not to

be named, said Johnston will at-

tempt to compromise the issue or

falling in that, will probably take

it to the President.

DiSalle's telegram to the mayors

of 1,253 cities asking that they set

up volunteer committees to aid

price control officials was un-

announced on a television program.

He credited the idea for the move

to Mayor William V. Bailey of

Battle Creek, Mich., who appeared

to help outline it.

the collegiate basketball parade

today with three-fourths of the

season gone. But the way the

Wildcats have been clawing away

lately — why, it's simply amaz-

ing.

Actually, only two missed foul

shots have kept Kentucky from an

undefeated record. The Wildcats

have won 18 games while losing

only once, a 42-42 setback to St.

Louis in the Sugar Bowl tourney.

And that defeat might have been

averted if Captain Walt Hirsch

had connected on one or two of

his free throws in the final sec-

onds.

Kentucky, nevertheless, is enjoy-

ing one of its finest seasons in

history. The Wildcats have a wise-

like grip on the Southeastern con-

ference race (10-0) and are rated

No. 1 in the weekly Associated

Press poll. Some even are compar-

ing these 1951 Blue Grass hol-

shots with the great Croza-Jones

blend combination of a few years

ago.

While that still has to be proved,

one thing may be said for this

season's Wildcat team: it has tremen-

dous potential, perhaps more than

anybody realizes.

It's conceded competition in the

Southeastern circuit is compara-

tively weak. But the way Ken-

tucky has been rolling through

the conference is enough to make

anyone shudder.

Last week Kentucky played four

league games, and none even re-

minded a mild struggle. In order,

the Wildcats demolished Tulane,

104-66; Louisiana State, 81-50; Mis-

issippi State, 60-50, and last Sat-

urday, Mississippi, 66-38.

The Wildcats take it easy this

week with only one game, Georgia

Tech Saturday at Lexington.

Meanwhile, Oklahoma A & M,

the No. 2 team nationally, faces a

busy schedule after a week lay-

off. After playing at Kansas to-

night, the Aggies Thursday play

host at Oklahoma, the only team

to trip them this year. Oklahoma

A & M has the same record as

Kentucky, 18-1. The Aggies play

Drake Saturday at Stillwater.

While Kentucky's stock zoomed

to a seasonal high last week, Long

Island university and North Caro-

lina State suffered setbacks.

Fourth-ranked LIU concluded a

disastrous road trip by losing to

St. Louis, 63-37, Saturday. Long

Island dropped four of its five

road games, losing to Arizona

Monday and Kansas State Wednes-

day.

NC State, No. 8, lost to Louis-

ville, 86-70, Wednesday, then

dropped its first Southern confer-

ence game after 10 straight vic-

tories, to William & Mary, 68-78.

**SHINE ON HIS SHOES** — The war waits while a Yank gets  
spruced up. A dazed G.I., member of a southbound UN convoy in  
Mexico, gets his shoes shined by a small, native boy as the convoy  
pauses in a small town. (NEA-Acme-Telephoto by Staff Photogra-  
pher, Walter Lee.)

**ROMAN FUNERAL MARCH**—Canvas-hooded members of the  
Hellenic brotherhood, "Saccani," march in the funeral procession  
of a fellow member. The "Saccani," an organization of nobles  
dating back to the 18th century, takes its name from "sacro,"  
Latin word for canvas, which is material used for the costumes.

**SNOW LIFT**—Linda Jane Keister, 31, has her hands  
full trying to lift shovel off some of the six-inch snow that  
blanketed Cincinnati. The snow's not so tough, it's the shovel  
that's too heavy.

Only Korean War Has Obscured  
Bitter Quarrel Between  
India and State of Pakistan

Rev. C. Ray Hasendorf, for-  
mer pastor of the Prescott Metho-  
dist church, has been named pres-  
ident of the Hot Springs Ministerial association.

News of Mrs. William Norton has been to learn that she is con-  
fined to her home with a broken leg.

**Highway Audit Scheduled for House Debate**

Little Rock, Feb. 5.—The Arkansas House will vote today on a bill to schedule an audit of the highway department.

The bill, sponsored by Sen. Grover Carnes, would provide for election by the legislature of an audit commission with one member from each congressional district. This seven-man commission would get \$125,000 from the highway fund to finance an investigation of department operations for six years.

Supporters of the bill claim Ar-  
kansas voters are demanding the probe to find out where taxes paid for highway construction and re-  
pairs are going.

Carnes claims he has received "hundreds and hundreds" of let-  
ters, telephone calls and tele-  
grams from people requesting the investigation.

Carnes also says that if the audit turns up any irregularities in operations of the department, "large sums" might be recoverable from three sources: The department and his bondsmen; the purchasing agent who made the pur-  
chases and his bondsmen; the ven-  
dors when he had knowledge that they were not being com-

ponents of the measure claim the bill would in effect place a "household" commission over the highway department and would

be a "household" commission over the highway department and would

## Eisenhower Convinced Plan Worthy

Washington, Feb. 5.—(AP)—Gen. Dwight D. Eisenhower apparently has convinced a majority of law-  
makers that the migration of some American troops to West-  
ern Europe's defenses is a worthy while venture.

But some legislators remarked pointedly that the five-star gen-  
eral left a lot of questions unan-  
swered in four congressional and a national radio-television appear-  
ances last week.

A cross-section of opinion indi-  
cated that Eisenhower, who com-  
mands the North Atlantic defense force, made progress in convinc-  
ing lawmakers that Western Eu-  
rope has the will and ability to fight, if necessary.

There were some, however, like Senators Dirksen (R-Ill.) and Car-  
son (R-Ore.), who remained doubtful on this score.

Eisenhower pleased many of his listeners with his insistence that the main European need right now is equipment. Congressmen gen-  
erally seemed disposed not to quibble over guns when men also are involved.

Eisenhower made a dent in the outer ranks of those who have been demanding that congress put a ceiling on the number of troops that could be sent abroad. He said he wants to retain "flexi-  
bility" on this score.

As a result, Senator Douglas (D-Ill.) appeared hesitant about pre-  
siding his earlier demand for a limi-  
tation. Senator George (D-Ga.) said congress must fix a ceiling con-  
tinually but need not necessarily do it in immediately forthcoming leg-  
islation.

Senator Taft (R-Ohio) stood his ground firmly, asserting that Pres-  
ident Truman should submit any troop agreement to congress. Sen-  
ator Bridges (R-N.H.) thought congress should be consulted. And Senator H. Alexander Smith (R-N.J.) insisted that Eisenhower's stand didn't bar future congress-  
ional action on this issue.

Little Rock, Feb. 5.—(AP)—The proposed Dixie Downs horse rac-  
ing track may be back in the news this week.

Sen. James D. Johnson of Cros-  
sett has said he will introduce a bill to allow the track to open at West Memphis. The bill would mark state revenues from its op-  
eration to finance a new medical center and rebuild the state hos-  
pital.

A house resolution favoring Dixie Downs sidetracked to a com-  
mittee.

Johnson said his bill would provide funds for the medical center and hospital construction without placing another burden on the Ar-  
kansas taxpayer.

Governor McNair has suggested doubling the state income tax and increasing other levies to provide funds for work.

Another bill destined to receive consideration in the senate would increase that body's power over appointees of the governor. Sen. Ernest Nicholson of Harrison said he will introduce the plan early this week.

The proposal would require that all supervisory employees must be confirmed by the senate before they can draw any state money. It also would provide that if such an employee is appointed while the senate is not in session, he may not receive salary or expense checks unless he has the written approval of the senator from the district in which the employee resides.

The measure, in effect, means that the command of the senate over jobs would extend down to the level of county supervisors for the revenue and highway depart-  
ments.

Twenty-two senators have co-  
signed the bill, Nicholson said.

seemly have been slow to get down to work.

The highway department audit bill, sponsored by Sen. Grover Carnes, would provide for election by the legislature of an audit com-  
mission with one member from each congressional district. This seven-man commission would get \$125,000 from the highway fund to finance an investigation of department operations for six years.

Supporters of the bill claim Ar-  
kansas voters are demanding the probe to find out where taxes paid for highway construction and re-  
pairs are going.

Carnes claims he has received "hundreds and hundreds" of let-  
ters, telephone calls and tele-  
grams from people requesting the investigation.

Carnes also says that if the audit turns up any irregularities in operations of the department, "large sums" might be recoverable from three sources: The department and his bondsmen; the purchasing agent who made the pur-  
chases and his bondsmen; the ven-  
dors when he had knowledge that they were not being com-

## NATURAL GAS

Flame Cooking is...

MODERN  
SAFER  
FLAVORFUL  
EASIER  
EXACT

and Costs Less!

MODERN HOUSEWIVES prefer the simplicity, precision and completely automatic features of natural gas cooking. . . . They know there are no buttons to push; no restless waiting for proper cooking temperatures. They know, too, there's a dependable flame at the turn of a valve. Couple these advantages with safety, cleanliness, economy—and presto! You have the answer why 27,000,000 housewives in America prefer gas ranges in the home. Husbands, too, know and prefer these advantages of flame cooking. Best of all—at bill-paying time—experience actually proves for both husband and wife that flame cooking COSTS LESS!
